

EVO 3.0

**IDEAL CARGO
TRAILER LINES**

AVANTAGES 

A TRAILER THAT STAYS AHEAD OF THE COMPETITION

The Avantages model, supported by Duracore technology, offers the best value for the entire range of Ideal Cargo products. We use quality materials and up-to-date manufacturing processes to develop a more economical trailer suiting your every need.

A TRAILER DESIGNED FOR HEAVY WORK

The commercial-grade Revolution trailer, supported by Duracore technology, which is characterized by its strength, its appearance and the flat roof that can be made strong enough to walk on! The corners are more angular than other models, so this trailer distinguishes itself by maximizing the interior space.

CHOOSE YOUR ZONE
